3. Gapped text

Independent film

Filmmaking also takes place outside of the mainstream and is commonly called _____. Filmmakers can _____ and edit a film thanks to a DV technology. They create and edit the sound and music, without any sound department, that builds up the sound track. Finally, independent filmmakers mix the final cut on a home computer. However, _____, distribution, and marketing remain difficult to carry out outside the traditional system. Most independent filmmakers rely on _____ to get their films noticed and sold for distribution. However, the Internet has allowed for relatively inexpensive distribution of independent films; many filmmakers post their films _____.

It needs a very good and perfect marketing, that's why big film companies usually release a film with _____, press releases, interviews with the press, press preview screenings, and film festival screenings. Most films have a _____. The film plays at selected cinemas and the DVD is _____ a few months later. The distribution rights for the film and DVD are also usually sold for worldwide distribution.
